Comment: this table shows the results of each individual candidate who completed the Google form, identifiable by the "ID" column. In some individual cases, there may be discrepancies between the result shown in the Google form and that in this ranking due to the subsequent revision of the questions and the exact answer to be scored. The first line shows the percentage number of candidates who correctly answered the single question indicated. The analysis is reported at the end of this file. ***Due to an error in the test of question number 58, we canceled all the answers and considered for all 0 points***

The score is calculated according to the ministerial rules: +1.5 points for each correct answer, -0.4 for the wrong ones, 0 points for those not given

Legend *Correct* *Wrong* *Not given* *Number: 68*
